EVENT INFORMATION

Eligibility

This is an NSCA event. All NSCA members' targets must be registered. All participants competing for awards must be current NSCA members.

Rules

All NSCA and/or FITASC rules apply.

All protests must be in writing and addressed to the jury chairman. The jury will be posted on the scoreboard. The deadline for submitting a protest is 15 minutes after the last shot is fired on the day the incident took place.

In accordance with NSCA rules, shoot management may refuse any entry or cause the withdrawal of any contestant who annoys, endangers, or interferes in any way with the harmony of the shoot, or, in management's opinion, whose conduct is unsportsmanlike. There will be no refunds to any contestant expelled from the tournament.

Jury and shoot management decisions are final.

Shooters Responsibility

Shooters are responsible to see that they are placed in the correct class upon entering. Any shooter in the wrong class will be disqualified. Corrections to scores, event, and concurrent entries must be reported to registration as soon as they are noticed. Shooters are urged to check their scores each day, as corrections to awards will not be made unless registration is notified before shoot-offs begin on the day of each event.

Safety Requirements

Eye and ear protection is required for all competitors, spectators, trappers, referees, and workers on the shooting courses and practice areas. Those without adequate protection will be asked to leave the shooting areas.

TOGETHER, WE CAN CATCH A CURE FOR DRAVET

Marlins for Mason is a 501(c)(3) nonprofit organization started by Amanda Prather/Matarese (Mason's mother) and Anthony Matarese, Jr. (Mason's uncle) in 2023.

Mason, grandson of Anthony and Donna Matarese was diagnosed with Dravet Syndrome at 4 months old.

Dravet Syndrome is a rare, catastrophic, life-threatening and lifelong form of epilepsy that significantly affects all aspects of life. Mason suffers from frequent severe and prolonged seizures, developmental delays, feeding and mobility issues.

During his brief life, he has had hundreds of seizures, innumerable ER visits, and frequent hospitalizations. The treatments are both limited and ineffective, and nearly a quarter of children with Dravet Syndrome die before adulthood. Currently, there is no cure for this life-shattering condition.

Because Dravet Syndrome is rare, very little money is spent on research. Amanda and Anthony Matarese Jr launched Marlins for Mason to help raise awareness and fund research to search for better treatment options and hopefully some day a cure. All money raised by Marlins for Mason is donated directly to the **Dravet Syndrome Foundation**.

In 2023 Marlins for Mason donated **\$312,457.94** to the Dravet Syndrome Foundation. This was the largest donation they had ever received. As a result of this donation, Marlins for Mason was able to independently fund a research project through the Dravet Syndrome Foundation.

In just one year Marlins for Mason is already making a big impact on the Dravet Syndrome world and with your help we will continue to work towards better treatments and hopefully someday a cure.

**Marlins for Mason is a
501(c)(3) Non-Profit
Organization created by
Amanda Prather
(Matarese) and Anthony
Matarese Jr.**

WHO SHOULD ATTEND?

This course will include both classroom and in the field practical examples. This is a very intense course where Anthony is sharing with you many things that are the trade secrets of Anthony and M&M. Anyone in the sporting clays community is well aware of Anthony's ability to set targets and run the most successful shooting events in the United States. After taking this course you will know **EVERYTHING** there is to know about reading targets, but this course is **NOT** about reading targets it is much more involved than that. The course is about knowing all of the ins-and-outs of target setting. All participants are welcome and anyone that is serious about the game will learn from this experience. This course is a must for anyone involved in target setting hoping to take his or her education to much higher level. What you will learn in this course is invaluable and has taken Anthony 25 years to learn as both a target setter and shooter. It is impossible to put a value on this experience, as Anthony is the only person in the world that has his depth of knowledge both as a world-class shooter and a target setter.
